

Motor Crossover? No Problem!

Fluidyne Fluid Power can offer you quick upturn to any downtime with our full line of hydraulic motors. Our high torque, low speed motors are available in 101, FM1, 103, FM3, 104, 109, 112, 119, 129 211, 500/501, and FM50/51. They are the same form, fit and function as the popular brands: Eaton/Charlynn, White, Ross, Parker, TRW and Danfoss. Fluidyne's motors are offered in nickel plating and epoxy coating to keep them running strong in severe environments or wash down situations. Our motors are 100% performance tested and are ready for immediate shipment. Each motor has 18-month warranty, so if you have any problems, we have a solution.

Call, email, chat...we're ready to help.
